Art Unit: 3729

Applicant introduced new claims 20-37 which are deemed to be completely outside the scope of the claims that are being examined i.e. claims 1-6 and 19. Specifically newly recited claims 20-25 (Group I) are directed to a computer readable media; claims 26-31 (Group II) are directed to a virtual printed circuit board (PCB); claims 32-37 (Group III) are directed to a device for laying out traces on a virtual circuit board.

From the above discussion it is seen that newly submitted claims 20-37 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Not only would the searches for these independently recited inventions be time consuming but the searches would be burdensome.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 20-37 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03. With respect to these withdrawn claims Applicant is required to cancel all non elected claims or take other appropriate action.

Claims 1-6 and 19 are held to be allowable.

This Application is in condition for allowance except for the following formal matters:

Applicant is to comply with the requirements stated hereinabove.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
